HABEAS CORPUS WRIT.

Is Issued in the Case of S. R. Price in Chinese Prison.

San Francisco, Feb. 23.—The U. S. circuit court of appeals has issued a writ of habeas corpus in the case of S. R. Price, in prison at Shanghai. He was convicted on Jan. 15, by Judge Wilfley, of the United States court for China at Shanghai of assault with a deadly weapon and sentenced to six months in jail. An appeal to the United States circuit court of appeals was granted but Judge Wilfley refused to admit Price to bail pending the appeal. The clerk of the court also refused to send to the court of appeals a transcript of the papers. Price's counsel in Chicna put the matter into the hands of local attorneys Thursday. The circuit court of appeals issued an order that the Shanghai court admit Price to bail on the proper securities being furnished, the bail being fixed at $4,000. The clerk of the court was ordered to furnish a transcript of the papers in the case.

"Blind Tiger" Gets Revenge.

Terre Haute, Ind., Feb. 23.—Following the raid of an alleged "blind tiger" liquor shop at Sandford by a sheriff's posse Thursday two stores and the Methodist church at Sandford were dynamited early Friday, the buildings being completely wrecked. The church building was blown up shortly before midnight. A few hours later the general stores of J. W. Reese and Shickel and Johnson were dynamited. The two buildings were destroyed almost simultaneously. The structures were wrecked and the stocks of goods practically ruined. The Reese store was a two story building, the upper floor being occupied by the Masonic lodge. Sheriff Horsely and detectives of this city are at Sandford working on the case. Sandford citizens allege that the dynamiteing was perpetrated out of revenge for the raid on the liquor stores. Further trouble is feared.

Gunner Fatally Injured.

Pensacola, Fla., Feb. 23.—Harry L. Leonard, a first-class gunner of the Twentieth company of Coast Artillery, was perhaps fatally inju... late Thursday afternoon at Fort Pi... ens by the firing of one of the 1... inch rifles. The fort had been engaged all day in heavy gun target practice, and it was near the close of the day that the commaand was given to fire, but the primer failed to ignite the charge. After waiting a few moments Gunner Leonard went to the gun and inserted a new primer and was just leaving the top of the breech when the gun fired, throwing him fully 30 feet. His skull was fractured, two ribs broken and many bruises sustained. His home is in Chicago.

A caucus wil be held Saturday night and a Democratic Central committee will determine who are to have the other places on the ticket. It is the general opinion, however, that there will be no serious contest against Mayor Dunne and that his nomination is certain. The Republican primaries will be held Monday.

SURVIVORS OF WRECK HAVE BEEN RESCUED

Ten Persons on Wrecked Steamer Berlin

HAVE BEEN SAVED FROM DEATH

An Officer Of the Great Eastern Railroad Company's Steamer Clacton, Gives a Graphic Account of the Catastrophe.

Hook of Holland, Feb. 23.—Ten of the persons who passed the night on the after part of the wrecked steamer Berlin have been saved.

The straggling little village of the Hook of Holland is filled with anxious relatives oif the passengers and crew of the wrecked vessel. Most of the bodies recovered were battered beyond recognition, and some are without heads and others without legs or arms.

The stern of the Berlin is so firmly imbedded in the sand bank on which she went ashore, that it does not appear to have moved during the night. At high water the top of the deck houses were the only portions of the steamer visible, and there the few survivors were huddled. A lifeboat which went out for the wreck as midnight accompanied by three tugs, remained there anchored close to the Berlin for three hours, but was unable to get alongside her as the heavy seas would have dashed her to pieces.

Captain Parkinson, of the Holt steamship line, who was on his way to Amsterdam to join his vessel, the Myrmidon and take her back to Liverpool is the sole survivor of the disaster who thus far has reached shore. He said this morning that the catastrophe was due to the fact that the Berlin broached too far in the terrific surf, and that before she was able to recover herself she was dashed on the pierhead, immediately "crunched up like a concertina" and parted amidships.

London, Feb. 23.—Noon. The Great Eastern railroad company's steamer Clacton returned to Harwich Friday morning from the Hook of Holland, where she arrived Thursday morning about an hour after the ill-fated Berlin was wrecked.

The Clacton stood by the remnants of the Berlin all day long and made strenuous efforts to rescue the survivors. An officer of the Clacton on Friday gave a graphic account of the catastrophe as follows:

"On our arrival at the Hook of Holland we found the Berlin broadside on th enorth pier end, and we at once set to work in an endeavor to succor the stranded steamer. A tremendous sea was running. The sea waves were 40 feet high, for the tide was flood, and a firece gale was blowing inshore. We got in close to the rocks, but nearly went on them ourselves, and had to put about in order to escape the fate of the Berlin. It was impossible for us to get out a lifeboat, as it would have been beat to pieces in the raging waters. We could see people in groups on board the Berlin, some on the decks and some in the smoke room, on the fore part of the vessel. As we approached in an attempt to rescue them, the persons on board raised a cheer. Apparently the best of discipline prevailed. All the passengers had been furnished with life belts, and had gathered on the lee side, endeavoring to shelter themselves from the awful seas which were ever breaking over the vessel, submerging her decks, funnels and almost her masts, at times hiding her entirely from view. When within a hundred yards of the Berlin we threw out all our life belts with lines attached, but failed to reach her. It was impossible to take a line on the stranded steamer, as it could not have lived in the terrive waves.

"In the course of the morning, the great Eastern Railway company received a dispatch from their marine superintendent at the Hook of Holland as follows:

"'Have been out in the vicinity of the wreck with a tug and lifeboat all night long, and have just returned. Have been unable to rescue the people still on board the Berlin. The captain of the life boat reports that there are still three or four alive. Will try again as the water falls.'"

Young Boy Breaks Jail.

Gadsden, Ala., Feb. 23.—Robert Cox, a 14-year-old white boy, made his escape from the county jail on Thursday and up to a late hour had not been caught. Young Cox had been placed in jail for stealing brasses from the different foundries, and was being held until he could be placed in a reformatory. The sheriff had orders to not confine him closely with the other criminals, and he was sent out into the back yard, which is enclosed with a high board fence, to get a bucket of coal, and remained longer than usual. A search was instituted at once, but he could not be found. The boy has been convicted twice for stealing.

Negroes Are Arming Themselves.

Montgomery, Ala., Feb. 23.—In the senate Thursday Mr. Hinson read a letter from Lowndes county stating that negroes of the black belt were arming themselves with winchester rifles, and fears of trouble were felt. Mr. Hinson was at a loss to understand it. In discussing a bill to prevent carrying pistols, Senator Reese said that it would be the best thing ever known for his county if some respectable citizen was hanged for murder, which, however, he did not expect to see though the negroes are rarely ever allowed to get away after such a crime.

Move Toward Prohibition.

Montgomery, Ala., Feb. 23.—A house bill which passed the senate Thursday and will be approved by the governor, goes further towards prohibition than any law ever enacted in Alabama. It provides that when 25 per cent of the voters of any county sign a petition, the probate judge shall order an election to determine whether the sale of liquor shall be prohibited altogether in the county. The Anti-Saloon League supported the bill and will begin an active canvass to bring about elections in all of the important counties of the state.

Prescriptions Must Be in English.

Little Rock, Ark., Feb. 23.—The Patterson bill, which requires every proprietary remedy sold in this state to have its formula printed on the label, was so amended by the senate committee on public health as to extend the provisions of the bill to prescriptions prepared upon the authority of a physician, the only requirement being that prescriptions must be written in English.

MAN SHOT DEAD BY ANGRY WOMAN

Wife of Democratic Boss of Chicago In Prison.

BLACKMAIL CAUSE OF KILLING

So Her Husband Declares—Mrs. McDonald Was Locked in the Office with Guerin When She Shot Him to Death.

Chicago, Feb. 23.—Webster H. Guerin, alias Fisher, of 655 West Harrison street, and proprietor of the Harrison Art company, was shot and killed in his office in the Omaha building at LaSalle and Van Buren streets by Mrs. Flora McDonald, wife of Michael C. McDonald, a millionaire, who was for many years the democratic political boss of Chicago.

The motive for the killing is not exactly known. Mrs. McDonald became hysterical immediately after the shooting, and was unable to make a connected statement. From what she said, however, it is believed that for some time Guerin had obtained money from her by the threat of making disclosures to her husband unless paid for keeping silent.

Shortly before noon Mrs. McDonald entered Guerin's office, and the latter, as soon as she entered, directed his office boy, Herman Hanson, to leave and return later. A quarrel between Mrs. McDonald and Guerin had already commenced when the boy left the office. Within fifteen minutes after the departure of Hanson a report of a revolver was heard, and when other occupants of the building rushed to the door of Guerin's office they found it locked, with Mrs. McDonald endeavoring to escape through a hole she had made with the butt of her revolver in the glass which formed the upper half of the door. Her face was covered with blood which streamed from a number of small cuts inflicted by the glass.

Lorenzo Blasi, who occupied an adjoining office to Guerin's, was the first to reach the door, and with the help of others he pulled Mrs. McDonald through the door and took the revolver from her.

Mrs. McDonald refused to give her name or to state what had occurred in Guerin's office.

In the lower part of the building when the shooting occurred were two police officers on their way to Guerin's office to investigate his business, concerning which complaints had been made to the police. It was claimed by several people that Guerin had been demanding exorbitant sums of money for making enlargements of photographs and threatening legal proceedings if the amount was not immediately forthcoming. These officers placed Mrs. McDonald under arrest.

Inside the office the furniture was thrown around as though a struggle had taken place, and Guerin was lying dead on the floor, with a bullet wound back of one ear.

Mrs. McDonald, still unidentified, was taken to Harrison street station, and her identity was not made known until her uncle, B. M. Schaffner, entered the station.

KANGAROO WAS CAPTURED.

Was Taken by Little Colored Girl Three Miles East of Town.

The kangaroo belonging to the Smith Greater Shows which escaped Thursday afternoon has been captured and returned to its owners, who liberally rewarded a little colored girl who took it into custody.

The kangaroo's escape naturally caused a great deal of excitement around the show grounds, as it was a valuable animal, secured at great expense. The little girl in question, who is scarcely more than twelve, read of the escape in The Sun, and early Saturday morning found the animal quietly sleeping in a corner of the yard.

SATURDAY'S WORK AT THE TABERNACLE

Only Three Services, But All Were Well Attended.

TODAY CLOSES CONFERENCE

The Afternoon and Evening Services Promise to Prove of Unusual Interest, as Speakers of National Note Will be There to Deliver Sermons.

The Saturday services of the National Winter Bible Conference were well attended, and those who attended were well pleased with what they heard at each session.

In the morning Prof. J. R. C. Brown delivered his usual lecture on the Bible, delivering a most instructive scripture lesson. He was followed by Dr. D B. Strouse of Virginia, father of Dr. Clarence Strouse, who delivered a most excellent and impressive sermon This was the first time during this season that Mr. Strouse has addressed a congregation, notwithstanding that he was one of the favorites, and those who heard him were highly pleased and impressed.

There was no afternoon service, but in the evening Rev. George R. Stuart delivered a stirring and most interesting sermon, which, like all others, was one which reached down to the bottom and created a good impression. Dr. Stuart is one of the most influential speakers ever visiting Gainesville, and never fails to impress those who hear him.

The Tabernacle this morning will be occupied as a courtesy to the Presbyterian church, that building being in course of repair. The sermon will be delivered by Prof. J. R. C. Brown, and it goes without saying that it will be one full of interest.

This afternoon at 3 o'clock Chas. N. Crittenton, the New York evangelist, will be heard at the Tabernacle, and tonight, which will close the Bible Conference, Rev. Geo. R. Stuart will conclude his wonderful discourses, which are in series. It is needless to add that the big Tabernacle will be well-filled tonight.

CONSTABLES TAKE PISTOLS.

That Is, If It Happens To Be a Good Gun.

Jackson, Miss., Feb. 27.—According to reports from sheriffs over the state, magistrates are paying no attention whatever to the new statute providing that the weapons of persons convicted of carrying same concealed shall be turned over to the sheriff of the county and publicly destroyed.

The statute in question has been in force since the 1st of October, but it is doubtful if more than a dozen weapons have been delivered for destruction in the entire state. The sheriff of Hinds county reports that he has not received a solitary pistol or other deadly weapon for this purpose, yet it is a certainty that scores of persons have been fined for carrying concealed weapons since the law went into effect.

As a rule the constable who arrests a pistol-toter confiscates the weapon, and if it happens to be a good one, he converts it to his own use. Should it be an unreliable gun, he sells it to some individual who forthwith becomes a pistol-toter.

Unfortunately the new statute does not prescribe a penalty for officers failing to deliver weapons for destruction, and while the penalty clause is lacking, the law is not likely to be enforced.

Treaty Sent to Washington.

Puerto Plata, Santo Domingo, Feb. 23.—News has been received here of the sending to Washington of the treaty recently signed by Mr. Dawson, the American minister and Minister Velasquez, the terms of which were cabled to the United States. If the United States senate ratifies the treaty it will, it is stated, cause a bitter fight in the Dominican congress for public sentiment is opposed to the new convention. It is held that there should be delay so that conditions acceptable to both countries may be arrived at.

Letter to G. K. Broome, Gainesville, Fla.

Dear Sir: Here's honesty for you! North Dakota has a pure paint law. Prof. Ladd, the State chemist, analyzes a certain paint labled "contains only lead and zinc and is strictly pure," and finds it no lead at all, a resinous oil, and benzine. It is, however, full-measure and contains no water.

That's like the man on trial for killing his grandmother; proved that he didn't set fire to the house.

No lead, but zinc and barytes, resinous oil, and benzine—"strictly pure lead and zinc paint!"

Pure paint is lead-zinc-and-oil; but that isn't all; there is such a thing as proportion and make. The strongest paint is Devoe.

North Dakota is doing a handsome thing in holding these confidence-people up to scorn. She gives their names as well as their works.

Yours truly,
F. W. Devoe & Co.

Women Avoid Operations

MISS ROSE MOORE

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N. Y. She writes:-

Dear Mrs. Pinkham:-"Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

THE SUN, Gainesville

GRADED AND HIGH SCHOOL.

Interesting Batch of Notes From The Sun's Special Correspondent.

The enrollment has now reached 520, and they are still coming.

Quite a number have been absent this week on account of colds.

We were all glad to see our principal back Monday, after a two days' absence on account of illness.

We are now using daily mottoes furnished each morning at chapel by one of the grades. The motto for Wednesday, furnished by the Eighth grade, was, "Do the Best You Can;" for Thursday the Fourth grade gave us "Strive to Improve;" on Friday the Third grade gave us Washington's motto, "Do Right." The Sixth grade will announce Monday's motto.

The High School pupils are all delighted with their new teacher, Miss Wallace, who is proving not only an accomplished instructor but a most excellent disciplinarian. There is a very marked improvement on the general order in classes in her department.

The principal has taken charge of the Eleventh grade mathematics—geometry. From the way he has set the pace this week, it looks like there is going to be something doing in geometry.

By request of their parents, a number of the High School pupils are attending Dr. Brown's morning lectures on Genesis at the Tabernacle.

The Young People's Bible Class, which meets in the chapel after school hours every Thursday afternoon, is well attended, and promises to be both interesting and improving. Several of the teachers are attending.

Since Miss Miller has put her rhetoric class to composition writing there is a great demand for cyclopedias and reference books.

Oh, for some physical apparatus! Is the school board ever going to give us a physical laboratory? We are trying "to make bricks without straw"—or clay or water.

We are very grateful to The Sun for its kindness in giving us so much space. But we do wish our parents and friends would come over and see for themselves what we are doing. If their interest in the school is to be judged by their actions, it is a minus quantity.

Will those University boys who have been using our auditorium of evenings this week for their minstrel rehearsals, please get their Bibles and turn to the tenth chapter of St. John, and read the first verse over several times very slowly and carefully?

Card of Thanks.

I desire through the columns of The Sun to express many thanks to the dear people of Gainesville for their kindness to my wife during her recent serious illness. I want to express sincere thanks to Dr. Hodges for his able, noble and faithful medical attention which has been so signally blessed, and to assure these friends that their kindnesses will never be forgotten.

Very gratefully,
J. D. WALKER.

DEATH OF DR. NOLAN.

Well Known Man Formerly Resident Here Passed Away in Georgia.

Information has been received in this city of the death of Dr. James F. Nolan, which occurred at his home in Roswell, Ga., a suburb of Chattanooga, Tenn., on Sunday afternoon last.

Deceased was about sixty-five years of age. He was well known in this city, where he spent a number of years, and was at one time mayor of the city. He was also prominently connected with the city in a professional and business way.

Deceased was a native of Union, S. C. About thirty-five years ago, in Yorkville, S. C., he married Miss Ione Sadler, sister of W. B. and S. C. Sadler, deceased, shortly after which time he moved to Florida. During his residence in Florida he was located in Jacksonville, St. Augustine, Palatka and Gainesville, the former city being his last place of residence in this State.

The funeral was held from the residence Monday afternoon, the interment being in the Confederate cemetery in Chattanooga, as deceased was a Confederate Veteran. He was also a member of the Presbyterian church. His numerous friends here will regret very much to learn of his death.

Deceased is survived by a widow and one daughter, Mrs. Annie Blodgett, both of whom have the sympathy of friends throughout the State.

Common Colds Are the Cause of Many Serious Diseases.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. Everyone knows that pneumonia and consumption originate from a cold, and chronic catarrh, bronchitis, and all throat and lung troubles are aggravated and rendered more serious by each fresh attack. Do not risk your life or take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other hurtful drug and has thirty years of reputation back of it, gained by its cures under every condition. For sale by all druggists.

Death of An Infant.

Thelma Forrester Carter, daughter of Mr. and Mrs. W. A. Carter, died Saturday morning at 6:10 o'clock of pneumonia, aged three years, two months and sixteen days.

The death was made all the more sad on account of the absence of the father, who holds a traveling position and who was not aware of the child's death until he returned to the city. The sympathy of the community is extended to the bereaved parents.

The funeral will be held from the house at 3 o'clock this afternoon, Robt. McClellan having charge of the arrangements. Rev. T. J. Nixon of the First Methodist Church will officiate. The interment will be in Evergreen cemetery, and friends of the family are invited.

Even From the Mountains

Ballard's Snow Liniment is praised for the good it does. A sure cure for rheumatism and all pains. Wright W. Loving, Grand Junction, Colo., writes: "I used Ballard's Snow Liniment last winter for rheumatism, and can recommend it as the best liniment on the market. I thought at the time I was taken down with this trouble that it would be a week before I could get about, but on applying your liniment several times during the night, I was about in 48 hours and well in three days." TO THE PEOPLE OF GAINESVILLE

A PROCLAMATION

BY W. M. JOHNSON, PHARMACIST.

Inasmuch as it has *always* been our policy to take the people of Gainesville into our confidence in all matters pertaining to VINOL, it is with pleasure that we are here able to present an illustrated exhibit of the process through which VINOL passes in its manufacture.

The exhibit not only demonstrates the fact that VINOL is a real scientific preparation made from fresh cods' livers, but shows by illustration every ingredient of which VINOL is made. This proves to the people of Gainesville that VINOL not only complies with all conditions of the new Pure Food and Drugs Law, but always has done so, inasmuch as its ingredients have always been made public and its qualifications never misrepresented.

We are sorry we cannot print in The Sun this exhibit in the natural colors of the material contained in the different jars. We have a booklet showing this exhibit lithographed in colors, a copy of which we will be glad to hand to anyone asking for it at our store. The newspaper illustrations, however, will serve to assure our customers and friends that VINOL is in no way a secret preparation, but is as ethical as any preparation put up or prescribed by anyone

THE DELICIOUS COD LIVER PREPARATION WITHOUT OIL

HOW VINOL IS MADE

FROM FRESH COD'S LIVER

The Chopped Cod's Liver Showing the Separation of the Oil

Exhausted Liver Showing Three Layers, Upper Layer Washed Oil, Middle Layer Exhausted Liver and Lower Layer Solution of Medicinal Extractives

The Concentrated Medicinal Extractives of Cod's Liver Shown in Solution and the Valuable Medicinal Elements Found in Cod's Liver Oil

Magma of Iron Peptonate (Organic Iron) Made by Chemically Combining Iron Oxychloride with Beef Peptone

Fifteen Per Cent. Solution of the Iron Peptonate (Organic Iron)

Vinol the Finished Preparation, Containing the Concentrated Extract of the Cod's Liver and Solution of Iron Peptonate in pure native wine

¶ In making VINOL, the Fresh Cod's Liver is put through the several stages represented by these illustrations, reproduced from photographs, all of which proves that VINOL is a real Cod Liver preparation, made by a scientific process which eliminates the oil and retains the valuable medicinal extractives.

We ask you to study this exhibit so you will fully understand how the valuable medicinal extractives are recovered from genuine fresh cods' livers and the process explained. This will show you conclusively that VINOL is not made of drugs or chemicals which are *said to resemble* the medicinal elements found in cod liver oil, but that VINOL *actually does contain* in a highly concentrated form all the medicinal extractives of cod liver oil, *actually obtained from* genuine fresh cods' livers, together with the organic iron—a needful constituent for the blood—dissolved in a pure native wine as a preservative. VINOL, unlike oily preparations, is easily digested and agreeable to the weakest stomach. For these reasons we believe

VINOL is far superior to the old-fashioned cod liver oil and emulsions for coughs, colds, bronchitis and all throat and lung troubles, and as a body-builder and strength-creator for old people, delicate children, weak, run-down persons after sickness.

Know, therefore, all persons who are in need of such a medicine that we will supply them with VINOL on a positive guarantee that if it does not succeed in benefiting them, we will refund the entire amount of money paid for the medicine.

You see OUR FAITH in VINOL, and you must admit that we know something about medicine; therefore, when we tell you that VINOL is the most valuable Cod Liver preparation on the market, and a wonderful tonic-reconstructor and rebuilder of strength, appetite and health, at the same time delicious to taste, we are not unreasonable to expect you to believe us.

MORE! MORE!!

"I want more," cries labor already in enjoyment of the highest wages in a generation.

"I want more," cries capital in enjoyment of the highest level of interest upon money invested in many years.

"I want more," cries the merchant as he pockets the highest prices for commodities.

"I want more," cries the housewife to her husband as she compares her allowance with the advancing costs of living.

"More," "more," everywhere the demand is for "more." Railroads want more money for extensions and equipment. Investors want more dividends, wage earners more wages, society more to spend on luxuries that are fast becoming necessities, colleges more endowments, and the government more appropriations.

Where is "more" coming from?

The people of Miami are bitterly opposed to the movement to divide Dade county. Should the divisionists succeed West Palm Beach would probably be the capital of the new county.

It is a noticeable fact that the delinquent subscriber who never pays any attention to notice that it is time for him to settle his dues, howls the loudest when his paper is stopped.

Senator Reed Smoot of Utah will now be able to occupy his seat with composure, as it has been decided that he is entitled to same. Four Democrats voted with the Republicans in favor of Smoot.

The Jasper News has entered upon its eighteenth year of publication. It is now one of the most attractive weeklies in the State and The Sun congratulates Editor Fishell upon its contents as well as its appearance.

St. Augustine will celebrate the landing of Ponce de Leon on April 2d, 3d and 4th. The event promises to be the greatest affair ever witnessed in Florida, and the Ancient City will be crowded with visitors during the three days.

It is to be hoped the men of Savannah who have raised five thousand dollars each by Judge Speer for forming a trust fund better keep their promise to "be good" in future, for if the Georgia Judge ever called upon to sentence them again they might be given the extent of the law.

An effort will be made at the approaching session of the Legislature to call a Constitutional Convention. There is no doubting the fact that Florida has outgrown the present organic law, and the time is drawing near when a convention will have to be called to submit a new constitution to the people.

"The learned district attorney" of New York will resume his cross-examination of Mrs. Harry Thaw on Monday. He has already made her mention knowledge enough to place her in a most unenviable light before the jury as well as the public, and by the time he finishes his examination it is more than probable that her statement will have lost its effect on the jury. She was certainly a "gay bird" prior to her marriage.

KEEP TO THE RIGHT.

"Keep to the right" is the law of the road, which, when obeyed, saves one a world of trouble.

Society is a public highway on a grand scale—a great turnpike whereon a hurrying, jostling, wrestling crowd of badly assorted humanity is ever thronging. Here is life in all its better phases—childhood with its golden hair and wondering eyes; youth with its widening, thoughtful outlook; manhood with its firm step and earnest purpose; old age with its bowed form and whitened locks. Here, too, are thickly strewn the wrecks of life—misguided childhood, headstrong and wayward; erring youth, rioting in frivolity and dissipation, and sowing the seeds of physical decay and moral death; vicious manhood, treading the downward road; and decrepit old age, sinister and sore, with its painful memories and hopeless future—all commingling in the one great journey from the cradle to the grave.

How much discord, inharmony and jostling would be avoided in this journey if each traveler would only keep to the right. There is a pitfall before you, young man; a temptation to do evil; a snare for your feet. You are forming habits of idleness, dissipation and extravagance, which will stick to you like the shirt of Nessus, hampering your noble efforts, and eventually dragging you down to the gateway of despair. Keep to the right and avoid it.

That is a doubtful business venture, sir, in which you are about to engage; one perhaps involving loss of self-respect and sacrifice of manly principle. You see where, by taking advantage of your neighbor's ignorance, you can get the best of him in a trade; or by some smart trick of the law you can evade some responsibility you have willingly assumed, or shirk some duty that lies in your way. Keep to the right. There, only, is the path of honor.

When tempted to deal in gossip or scandal; to play the tyrant in your family; to withhold the gentle word of love or praise from her who walks by your side; to lower the standard of your honor, or do aught that would make you less manly or noble in the eyes of good men and angels—keep to the right.

Keep to the right. These golden words should be engraved in letters of living light on the temple of every human soul. They should stand forth as finger posts at the junction of every wrong; at the point of every divergence from the straight path of rectitude; by every wayside temptation.

Keep to the right—spurning every ignoble thought, every unmanly action. Thus will you lay up treasures for a grand old age, and life will bear for you its richest fruits.

The Supreme Court has rendered an opinion declaring the Florida Railroad Commission authorized to require railroad companies to provide and maintain safe and convenient roadbeds, tracks, motive power, rolling stock, equipment, appliances and facilities for their operation, control, direction and management adequate to meet the reasonable requirements of the service they undertake to render. The opinion was rendered in mandamus proceedings instituted by Attorney-General Ellis against the Atlantic Coast Line, and further says: "The duty is imposed by law, in conferring the franchise and privileges, or in permitting their use, whether the grants of them be mandatory or merely permissive, and the acceptance or exercise of the rights carries with it the duty of properly rendering the public service undertaken, by virtue of the rights conferred or permitted to be exercised."

Catarrh Cannot be Cured

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. SERMONETTES

BY J. MARVIN NICHOLS.

Whatever may be the pet ideas of those who elect a life of bloomered, single-blessedness, a woman never was born to be a judge and jury. Her scepter is a caress, and her boundless empire is a realm of love. When she fails there her power over man has passed away.

In our great, congested centers, women who toil for bread are in an unspeakable danger—of a new sort, even in this modern age. On the one hand, there hang about entrances to theaters, churches and the great department stores, human vultures ready with their cowardly effronteries; on the other hand, if she resents their insult, there is a scandal-monging press ready to place her name before a gossiping public. Could a human be more utterly helpless? No wonder a recent publication, somewhat "yellow" itself, calls this modern situation "the bulwark of vice."

The Titusville Advocate says: "Senator Taliaferro of Florida and Senator Simmons of North Carolina are the Dromeos of the Upper House of Congress. They are as much alike as twin brothers; each has a heavy crop of dark hair, kept closely trimmed, and each affects a stubby moustache; they run to the same style in clothing, and it is probable that there is not two pounds difference in their respective weights. Strangers in the Senate galleries are constantly mistaking one man for the other, and this confusion is not relieved at all by the fact that the two are seat-mates."

WORMS

"I had for years suffered from what medical men called Dyspepsia and Catarrh of the Stomach. In August I purchased a box of Cascarets and was surprised to find that I "had 'em"—yes—a wiggling, squirming mass left me. Judge our doctor's surprise when I showed him thirty feet, and in another day the remainder (about the same length) of a tapeworm that had been sapping my vitality for years. I have enjoyed the best of health ever since. I trust this testimonial will appeal to other sufferers."

MERCURY DOES NOT CURE BLOOD POISON

While Mercury and Potash may mask the disease in the system and cover up the outward symptoms for awhile, they cannot cure Contagious Blood Poison; when the treatment is left off, the disease will return worse than before. Mercury and Potash eat out the delicate lining of the stomach and bowels, produce chronic dyspepsia, cause the teeth to decay, make spongy, tender gums, affect the bones and nerves, and often cause Mercurial Rheumatism, the most hopeless form of this disease. Thousands have taken the mineral treatment faithfully for years to find, when it was left off, that the disease had only been smouldering in the system, and the old symptoms of ulcerated mouth and throat, falling hair, copper-colored spots, swollen glands, sores and ulcers, etc., would return in all their hideousness, and they were no nearer a cure than when they first commenced the treatment. S. S. S. is the only certain, safe and reliable treatment for Contagious Blood Poison. It is the one medicine that is able to go into the blood and cure the disease permanently, and without injury to any part of the system. S. S. S. does not cover up anything, but so completely removes the poison that no trace of it is ever seen again. This medicine will also remove any bad effects left by previous mineral treatment. S. S. S. is made entirely of roots, herbs and barks; we offer a reward of $1,000 for proof that it contains a particle of mineral in any form. Write for our home treatment book, and if you desire special medical advice, our physicians will be glad to furnish it, as well as the book, free of charge.

BUSINESS WAS SUSPENDED.

In New York in Honor of George Washington's Birthday.

New York, Feb. 23.—Business was generally suspended Friday in honor of George Washington's birthday. The schools observed the hotiday chiefly by closing, but in some of them public lectures on patriotic topics was given. A feature of the day's program was the unveiling at the subtreasury of a bronze tablet of "Washinton at Prayer at Valley Forge." The unveiling occurred at noon and was in charge of Lafayette Post No. 140, G. A. R. There was a procession joined in the Washington guards in Colonial uniform, a detachment of regular troops from Governors' Island, marines from U. S. S. Louisiana and the veterans. A public reception took place at 3 p.m., at Washington's headquarters on One Hundred and Sixtieth street near Amsterdam avenue, under the auspices of the Washington headquarters' association.

Men Past Sixty in Danger.

More than half mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." Trying to Create a Scandal.

Paris, Feb. 23.—The opposition newspapers are trying to create a scandal out of the loss of the French cruiser Jean Bart, which, they claim, was seriously unfit to go to sea. It is said she broke down three times before reaching the Canary Islands, and was compelled to remain ten days at Las Palmas in order to repair her boiler. The cruiser was on her way to the West Indies, first to touch at Dakarin in order to land a scientific party, when she was wrecked.

Beautiful Women

Rely Upon

Newbro's Herpicide

Pilar Morin, the strikingly beautiful Parisian actress, of whom America's leading theatrical manager says: "I consider her the greatest actress in her line in all the world," writes as follows about **Newbro's Herpicide:**

"It is the most delightful hair dressing that has ever come to my notice. It prevents the hair from falling out, does away with dandruff, and gives the hair a beautiful luster."

Cordially yours,

Signed PILAR MORIN.

The fact that leading Parisian women prefer **Newbro's Herpicide** is certainly conclusive evidence of its superiority.

Beautiful, glossy hair, full of snap and life, is just as essential to a beautiful face as is the frame around a beautiful picture.

Nature does not permit every woman to have a great or unusual abundance of hair, but every woman who has reasonably good health may have beautiful hair if she will give it some care and attention.

First of all she must constantly strive to keep it free from the invisible vegetable growth (the dandruff germ) that causes dull, brittle and lusterless hair with later, dandruff, itching scalp and falling hair.

The only rational remedy for this purpose is **Newbro's Herpicide,** the original remedy that "kills the dandruff germ." It addition to its germ destroying power, it is the most exquisite hair dressing in the world, for no other substance tends to beautify the hair as does **Herpicide.**

A TRUE BEAUTY TEST FOR WOMEN.

Just begin the intelligent use of **Herpicide** in secret, and see how quickly your friends will notice the improvement in your hair.

Herpicide contains no grease. It will not stain or dye. Stops itching of scalp. Send 10c in stamps to Herpicide Co., Dept. L, Detroit, Mich., for Sample.

TWO SIZES, 50c and $1.00

It is understood that he will return next year, and it is assured that he will receive a warm welcome.

It counteracts any tendency of a cold to result in pneumonia, and if given as soon as the first symptoms of croup appear, it will prevent the attack. This remedy contains nothing injurious and mothers give it to little ones with a feeling of perfect security. Sold by all druggists.

In the Mayor's Court.

There were two cases in the mayor's court Saturday morning, as follows:

Fannie Tipper, fighting, $5 and costs.

Elmer Ford, fighting, $1 and costs.

Fines and costs paid and the defendants released.

Marshal Pinkoson states that the docket has been rather clear for the past two or three weeks, which speaks well for the city and its morals.
